INTRODUCTION

Hermes Industrial Group

Hermes Steel, a private corporation registered under 576423 registration No, is one of the main producers of alloy steel flat bars in Iranian industry; established to achieve our goal to improve industrial and economical capability of Iranian market.

With over 40 years of experience and a well-known reputation for our quality and commitment our company is backed by two production sites

First phase is situated on 4000 square meters plot of land capable to produce 3,000 Metric Tons of products per month located in Shams Abad industrial town in approximately 50 km of Tehran city focused on producing alloy steel flat and round bars with demanded dimensions and preferred alloy such as 55Cr3, St52, St37, 3SP, 5SP, Mo40, Ck45, Ck60 etc. With most premium quality available in market.

And second phase which is under construction is situated in 50000 sqm plot of land predicted to produce 6,000 Metric Tons of various steel sections such as round bars, rebars and flat bars.

MAH HERMES ARIA

With our well-expanded marketing network in metal industry we are delighted to mention our ability to supply any kind of products available in markets.

Iron Ore Pellets

DRI

Billet

Steel Beams

Bars

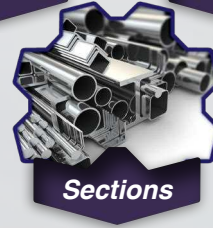

BRI

Slabs

Steel Sheets

Sections

This company is all able to provide other metals as well

Aluminum Sections

Copper

Bearing

Hamin Foolad Asia Corporation

Hamin Foolad, a prominent company in the steel industry, specializes in producing shafts, rebars, and steel sheets utilizing cutting-edge technology. Our diverse product range, including steel sections, finds applications in various sectors such as construction, petrochemicals, and vehicle manufacturing.

Through the expertise and dedication of our team of experts and engineers, we have meticulously designed our manufacturing process to adhere to international standards of quality and efficiency. Every product we produce undergoes a comprehensive quality control checklist to ensure customer satisfaction.

Our primary objective is to establish a strong reputation among our customers and contribute to the enhancement of industrial efficiency by delivering high-quality and reliable products. We are committed to continuously developing our products and services to expand our presence in both the Iranian and international markets.
